

SNAP EDUCATION

HEALTH & SAFETY PROCEDURES

Covid-19 Notice

SNAP is participating in the Alberta 'Restriction Exemption Program' for all in-person programs in the SNAP printshop. Anyone accessing the printshop is **required to show proof of vaccination** against Covid-19, and this includes course instructors, students, resident artists, and SNAP staff. If this prevents your in-person participation in our programs, we will work with you to develop an online learning option.

IN ADDITION:

SNAP **continues** to implement a number of health and safety measures:

- All users will maintain physical distancing whenever possible. Class layout and structure has been modified to accommodate 6 feet distance as much as possible.
- Masks are mandatory at SNAP and will be worn by staff, renters, instructors, and students at all times indoors. If you do not have a mask one will be provided for your use at SNAP.
- Tools will be signed out by students for the duration of the course when possible. Other shared items will be sanitized between uses by all users.
- Sanitizing and cleaning measures are in place, sanitization supplies are provided throughout the printshop. All printshop users will sanitize all common touch surfaces after use.
- Course sizes have been reduced to allow for physical distancing and to minimize the number of people in the printshop at a time. Renters will not be permitted in common spaces during class times unless given permission by SNAP Staff in advance.
- A reduced number of in person courses will be offered and programming will not be run simultaneously.

Symptoms and Illness

- Your consideration of personal daily exposure and your commitment to working safely in the printshop will help prevent the spread of COVID-19 and keep our community of artists and SNAP staff safe. You should only consider accessing SNAP's facilities at this time if:
- You have not had any cold or flu-like symptoms such as cough, fever, shortness of breath, runny nose, or sore throat within the last 10 days.
- You have not been in close contact with anyone with cold or flu-like symptoms or anyone who has tested positive for COVID-19 within the last 14 days.
- You have not traveled outside of Canada within the last 14 days.

Individuals must not come to SNAP if they have any flu or cold-like symptoms such as cough, fever, runny nose, sore throat, or shortness of breath. **Anyone with these symptoms will not be permitted to work at SNAP and will be advised to return home.** If you have recently experienced any cold or flu-like symptoms you must wait for negative test results and an end to your symptoms before accessing SNAP's facilities.
